### Research Assistant

#### University of Sharjah

Jan 2018 – Sep 2019  
Sharjah

- Collected millions of text articles using *Web Scraping* tools.
- Designed several *Machine Learning* models and trained them on that data.
- Automated lots of tasks, created some apps and worked on data analysis.

Python   Keras   TensorFlow   Selenium

## PROJECTS

### Arabits

#### Alef Education Project

- An application that teaches the Arabic language to non-Arabic speakers.
- Built more than half of its backend services and revamped the rest of them.

TypeScript   NodeJS   MongoDB   KoaJS

### Curio Learn

#### Saal ai Project

- A website platform to teach school student extracurricular science subjects.
- Work tremendously on its backend services and parts of its UI components.

TypeScript   NodeJS   MongoDB   KoaJS

### UOS HUB

#### Senior College Project

- A website designed to unify all University of Sharjah websites in one place.
- It scrapes all student data and displays them in a user-friendly interface.
- Built completely by myself during a period of 1 year, and it was a big hit.

Python   Django   AngularJS   Material UI

## ACTIVITIES

- Organized and volunteered in many Computer Science related events.
- Attended numerous workshops, hackathons, and programming contests.
- Active member of Sharjah Google Developer Group and OpenUAE.

## ACHIEVEMENTS

### Current Star

Ranked as a Current Star for 3 years in the companies I worked for. This rank is one of the highest on the scale.

### Golden Visa

Obtained the Golden Residence Visa in the UAE under the Talented Pioneers category for my work in Technology.

### Highest Honors

Graduated with an 'A' grade in nearly all university courses.

### Winning Contests

Ranked 1st and 2nd in multiple hackathons, awarded a total of 17000AED.

## SKILLS
